Marvel Project Deliverable

1) **Group Members:** Christopher Aben

2) **Outline of Responsibilities:**

a) **Homepage (index.html):**

- I have the image of my character (Magneto) already selected and saved within my project
- Created the fan club name to display on homepage *Brotherhood of Mutants* which is dedicated to the cause of mutant superiority over humans.
- Created the slogan for the club “Magnetic Fields Create Unbreakable Shields”
- Upcoming events will display information on genetic manipulation, human cloning, and magnetism

b) **About the club (about.html):**

- The club has been open since October 22, 2015 so has been active for less than one week
- The club hopes to promote an interest in scientific discovery by sharing the life of Magneto (Max Eisenhardt)
- Will create link to list of accomplishments for other club members

c) **About the Character (\${characterName}.html):**

- Provide backstory within a div on the page
- List out all of the powers/strengths/accomplishments (ul or ol)

d) **Register New Users (join.html):**

- Will create a form on this page that will have input fields for user registration

e) **Sitemap:**

- Will have a page that lists out all links on page

3) **General/Abstraction of Theme:**

- Will center all content on page with mobile responsiveness
- I plan on using a lot of red, silver, and black colors for the website

4) **Choice of Marvel Character:** Magneto
